## SMARTCHAIN PLATFORM

The central objective of the SMARTCHAIN Project is to foster and accelerate the shift towards collaborative short food supply chains (SFSC) and, through specific actions and recommendations, to introduce new robust business models and innovative practical solutions that enhance the competitiveness and sustainability of the European agri-food system.

The SMARTCHAIN Virtual Innovation Platform facilitates knowledge, innovative practical solutions and know-how transfer. Particularly, the platform aims to:

- Generate, share and utilize information on suitable innovations;
- Engage stakeholders in the SFSC sector;
- Disseminate SFSC innovation and cooperation events;
- Organize training activities and generate training materials on best practices in innovation;
- Build an international community through a short food supply chain game.

You can help us improve our Platform by answering a short online [questionnaire!](#)

**INVENTORIES**

This is a growing inventory of successful Short Food Supply Chain initiatives throughout Europe. These range from Apps to Visions, from local to Europe-wide, and are geared towards many or specific stakeholders, from consumers to policy makers. The initiative may be browsed or searched.

Use the SMARTCHAIN Platform Initiative Inventory to increase your visibility by adding your short food supply chain to this inventory (you must be registered on the SMARTCHAIN Platform to do so) and to get inspired by learning about a wide variety of successful initiatives.

#### Practice abstract 8

##### Short title (in English):

Transforming your grocery store into a springboard for transformational activities

##### Short summary for practitioners (in English):

The non-profit co-operative "Allotropon" ([www.allotropon.gr](http://www.allotropon.gr), in greek) is premised on and supports the concepts of solidarity economy and community development. Allotropon members habitually engage in practices that develop the sense of 'doing something right' and, at the same time, activate social links with other network members or the local community. In doing so, Allotropon members use the grocery store, which is also home to a café by the same name, as a springboard for transformational initiatives that reinforce the social value of its short food supply chain, get people together, and stimulate social activity. For example, Allotropon's members have transformed the store and café into a meeting point for the exchange of knowledge and ideas, and a venue for different events, such as food fairs, "earth fests" (e.g., informational events devoted to the real value of seeds), cultural happenings (e.g., concerts, film screenings, book presentations), speeches, and socially-oriented campaigns (e.g., gathering food items for refugees, catering for the most deprived). Everyone is welcome to get on board and reap the fruits of this social metamorphosis.

##### Short title (native language):

Μεταμορφώνοντας ένα παντοπωλείο σε ορμητή

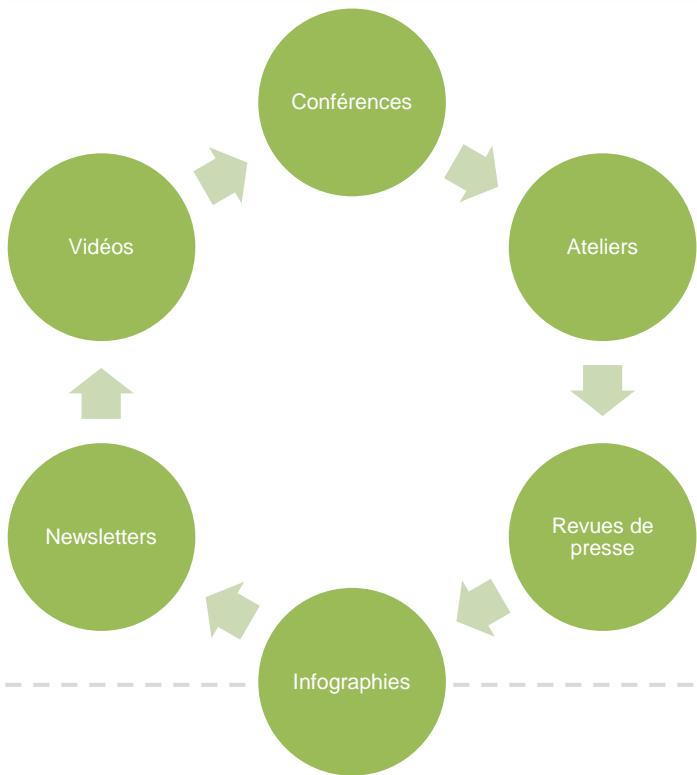

Food supply during the economic and social situation caused by the coronavirus (COVID-19)
