WP7 – Zakelijke en beleidsadviezen

2. **Inventarisatie van succesvolle cases** (D7.1)

B. Analyse van de innovaties

✔ Nr. van stakeholders betrokken bij de succesvolle cases vs. score

60% boven de gemiddelde > 2 stakeholder.

100% onder de gemiddelde ≤ 2 stakeholder.

2020 European Union Funding for Research & Innovation

The SMARTCHAIN project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 773785

WP7 – Zakelijke en beleidsadviezen

2. Inventarisatie van succesvolle cases – Conclusies

- De betrokkenheid van **stakeholders** is essentieel (**samenwerking** is de sleutel).
- Het **concurrentievoordeel** ten opzichte van de concurrenten is groot (92% beweert dit in verschillende bewoordingen).
- Acht van de twaalf innovaties (67%) betreffen **marketing claims**.
- Tien van de twaalf innovaties (84%) hebben lage of gemiddelde (<10.000 €) **geschatte kosten** die moeten worden geïmplementeerd.
- Gerelateerd aan de **technologische graad** is 33% van de **innovaties** radicaal (nieuw product / proces / diensten) en 67% incrementeel (verbetering huidig product / proces / dienst).
- Waar 100% van de innovaties kan worden toegepast op **biologische productie,** wordt 75% hiervan momenteel voor dit doel toegepast.

Bio fruits

Est. 2004
Area: Switzerland
Type: collective direct sales

Key Partners

Type / name and number	
Products • local farmers / fruit and vegetable producers	7
Packaging • IFCO - packaging film • Univerre Pro Uva – glass bottles	2
Distribution • Trandis truck transport	1
Label • BioSuisse	1
Others • COOP - retailer • ESR - energy supplier • Administrative/public partners • Vétroz – communal council • Agroscope - research centre	-

Key Activities

- organic fruit & vegetable cultivation (2000 tonnes per year)
- processing of 2nd class materials
- packaging w. sustainable material; glass and heat resistant PET bottles
- alliance with other farmers to increase production

Key Resources

human
35 employees (mainly part-time)

structural
- facilities for processing & packaging
- distribution to final location (outsourced)

Value proposition

"100% Bio"

At Biofruits, it is important to **work the fruit and the soil with respect**. It is therefore natural that the entire production that transits through our premises must be **organic**.

We take care of the fruits from the tree to the plate in order to offer our customers **unique quality fruits, with a real taste of nature**.

Area: Grimisuat (25 km radius)
Type: individual direct sales

Key Partners

Type / name and number	
Products • Agro (l,e, cereals); Winkler (products for cheese production); Aligro (spices)	3
Packaging • Aligro (paper for vacuum packaging)	1
Distribution • Manor (delivery)	1
Label • -	x
Others • Washing equipment for cheese company • National, regional and local administration bodies	-

Key Activities

- valorisation of goat milk cheese
- improving the traditional way of production
- less packaging to be more sustainable
- alliances with other farmers and distribution

Key Resources

human
5 employees

structural
- Tank, molds, trays for flaking, scale, cellar: manufacturing standards of a traditional cheese factory
- farmer shop

Value proposition

"local and artisanal"

Family business with local production and with low number of intermediaries, **maintaining the economic values in the producers and locally**.

Responding to customers demand by offering quality products and bringing innovation for a complete range of cheese.

Customer relationships

- consumer engagement is measured indirectly, via social media
- face to face and indirect contact with retailers /buyers
- Building consumer trust by offering quality of products, good taste and price

Label • -	-
Others • national and regional authorities	4

* around 266 network members, 32 Solawi- initiatives, 86 Solawi-farms

Key Activities

- non profit consultancy to producers and consumers
- assistance in the formation of community agricultural groups
- alliance with (mainly certified organic) farmers to improve their competitiveness

Key Resources

<u>human</u>
15 employees (100% part-time)

<u>structural</u>
-

Value proposition

"Share the harvest"

Community supported agriculture - private households bear the costs of an agricultural enterprise, for which they receive their harvest yield in return.

'The food loses its price and gets its value back.'

- Self empowered consumers
- Consumers turns into 'prosumer' (consumer + producer)
- Community-based decision on agricultural production
- SFSC (less waste, no transport or
- storage costs)

Customer relationships

- direct feedback from SOLAWI members
- to build trust famers advertise locally

Einkaufen auf dem Bauernhof
weil's vom Land kommt

Est. -
Area: Germany
Type: individual & collective direct sales

Key Partners

Type / name and number	
Products • Machinery/equipment, public utilities, packaging materials	2
Packaging • -	-
Distribution • Logistic centres for agricultural products	1
Label • -	-
Others • Regional authorities Lower-Saxony (ministries); Lower-Saxony municipality; Food safety monitoring; national tourism organisations	5

* 15 members of the Federation; 67 famers in Lower-Saxony; nearly 1000 farmers in DE

Key Activities

- alliances with farmers to improve their competitiveness
- consulting, professional education, lab analyses, representation of farmer interests, support, implementation of directives/regulations

Key Resources

<u>human</u>
9 employees (44% part-time)

<u>structural</u>
-

Value proposition

'Shopping at the farm' is a support community for **directly marketed agricultural products**. The community is organized via several famer associations and the agricultural chambers of the federal states.

Shopping at the farm means that **uniformly looking and tasting standard products should not exist**.

Customer relationships

- PR, network with other consultancy/agriculture associations, advertising via FB, fairs, expo etc.
- direct feedback from consumer
- shop with farmer products, showing sustainability and building a long term relationship based on trust

Channels

<u>Sales</u>
-

<u>Distribution</u>
-
